

# THE SAVE DATE

11-12 November 2025

Athens, Greece

**e-CODOMH**  
Cluster for Efficient and sustainable  
Construction, buildings & infrastructure.

## **e-CODOMH CONFERENCE 2025** **BUILDING A SUSTAINABLE FUTURE FOR CONSTRUCTION** Innovation, long-term impact and solutions for sustainability

The **1<sup>st</sup> e-CODOMH Conference** brings together key stakeholders in the construction industry and Built Environment to:

- Discuss technological, industrial, environmental and societal challenges & opportunities for the construction and manufacturing industry and the built environment
- Present the latest developments in sustainable building practices, materials and technologies
- Offer a platform to showcase Research & Innovation results
- Inform on relevant EU priorities, strategies and regulatory frameworks and international initiatives
- Enable discussions on cross-cutting issues and synergies
- Align industry practices with EU and national policies & regulations to shape building construction's future

### In a glance

The **1<sup>st</sup> Day** will be organized with keynote and invited speakers from leading industry representatives, distinguished scientists and researchers, as well as Institutional policymakers, who will present the Greek and European built environment and construction ecosystem.

The **2<sup>nd</sup> Day** will host reviewed presentations that will be submitted after an open call (coming soon) with focus on the Greek built environment and also a B2B Matchmaking event co-Organised by the Enterprise Europe Network.

### Thematic Areas

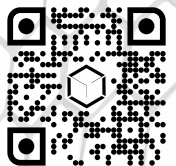

- Sustainable Construction & Renovation
- Digital Twins - digitalization tools and methods
- Circular Economy & Decarbonization
- Energy Efficiency in Buildings
- Sustainability & Resilience in the Built Environment
- Open Innovation Test Beds & Demo Sites
- Greek Building Projects
- Policy - Regulations - Finance

**We look forward to seeing you at e-CODOMH CONFERENCE 2025**

### About us

e-CODOMH is an innovation cluster of companies established in January 2022. Its members include dynamic businesses from the Greek construction sector, along with Associate members comprising Industrial Associations, Greek Universities, and Research & Technology organizations. With a strategic focus on technological innovation & sustainable development, e-CODOMH plays a pivotal role in shaping the future of construction industry & built environment in Greece. As a member of the European Construction and Sustainable Built Environment Technology Platform (ECTP) and the Built4People Innovation Clusters (B4PIC) Network in Europe, it is the Greek B4PIC that joins stakeholders to drive innovation within the Built Environment Sector.
