-  1st International Forum

Forum Mission

To attract sustained attention from business, government, international partners, and investors to Southern Ukraine as one of the key regions for reconstruction, infrastructure development, and the implementation of large-scale construction and investment projects.

We are creating a **hub for industry-focused events** that brings together business, government, and international partners around the recovery of Southern Ukraine.

Forum Concept

The first international forum that brings together four key forces to launch real reconstruction projects:

Ukrainian Business
Owners and CEOs of companies ready for growth.

Government Authorities
Local and regional authorities responsible for recovery.

International Companies
The Netherlands, Turkey, Romania, Azerbaijan, and others.

Investors and Funds
Key players financing reconstruction and regional development.
